

E – Safety

Taking care of your child online

How we use these technologies

Parents / Carers

- e-mail
- Shopping
- Booking trips
- Research

Young people

- Music
- Games
- Chat
- Instant Messaging IM
- Blogs
- Social Networking

Websites

- Which sites do your children use online?

The online world

- Children are natives in the online world, most are unaware of life without:
 - Iphones
 - Games consoles
 - Google
 - Emails
 - Facebook
- They feel confident using new sites and technologies, moving from site to site with ease.

Mobile Phones / Tablets

Creativity

- We're now going to take a closer look at how Facebook works.
- Your child may not have Facebook profile now, but chances are they will have before you know it.

Internet and FB Risks

- Unwittingly sharing personal information
- Unwanted contact/grooming
- Overusage – *e.g. always checking FB account*
- Cyberbullying
- Privacy/digital footprints

Managing Risks

Stay Safe Online

Click on the pictures below to learn how to stay safe online

Gaming

Half of children aged 8 to 15 own a games console, while a further third use one in the household.

Gaming Tips

- Leave all gaming devices in a family space
- Talk to your child about the sites they are using
- Explain that people lie online and they are not always who they say they are
- Explain that people can be mean online
- Ask them to never give out personal information
- Set parental controls
- Set time limits on how long they can game for. Allow time for non-technology based activities before bed

Buying a mobile - Tips

- Is my child **old enough** to have a mobile phone? Set boundaries
 - *Many parents allow their children to have a mobile when it is needed, i.e. leaving the house alone/starting secondary school.*

- Before buying your child a mobile, find out what **functions** it has:
 - *Internet, private messaging, built in applications*

- Set **parental controls** where required
 - *Talk to the service provider*

- Set **mobile rules**:
 - E.g. No mobile phone in the bedroom at night (you could charge them in yours overnight), mobile free time before bed.

Parental Controls

- As a **minimum**, please set parental controls on your search engines, youtube account and the mobile phone your child uses.
- One of the most popular search engines in the world is Google. You can visit Google's informative safety centre for **simple** step by step guides - www.google.com/familysafety/tools
- Here are a few options available to you:
- Visit the Google home page – www.google.co.uk and click on the 'search setting' tab in the top right hand corner.

Simple steps to protection: A Checklist

- **I have asked my child to show me sites they use**
- **I have asked my child to set the security settings on all the technologies they use**
- **I have asked my child to only accept people they know and trust in the real world as online “Friends”**
- **I have set safe settings on our computer/laptop and set adult content filters on my/my child’s smart phone**
- **My child has agreed to tell me if they are worried about something online**
