**2. Pen Portrait**

**Governor Pen Portrait**

**Background:**

I have been a teacher in Coventry since 1983 and am now a head teacher in a school in the North East of the city which is similar in context to Courthouse Green.  
I am very driven to improve the life chances of children in Coventry, I have been extremely fortunate in the education I received in the city, that my children received and feel that it is my civic duty to give something back, I hope I can do this as a Governor at Courthouse Green.

**Relevant experience**

I have attended Governors Meetings in my current setting for 12 years, initially as an observer as the Deputy Head and now as Head Teacher.  
I have supported Governors in their monitoring and support of the school and in meetings. I have run training for Governors in data and documents such as Raiseonline.  
As Head Teacher, I meet regularly with my Chair and Finance Officer to discuss school budget planning

**All about me**

I have lived in Coventry all of my life and most of that time has been in the Courthouse Green area.  
I attended Courthouse Green Primary School as a child, as did my four younger brothers and my own two children.  
I taught at Courthouse Green for several years, for three different head teachers, leading Literacy and the Year 5/6 Phase. I was acting Deputy Head Teacher for a short time.  
My dad was a parent Governor at Courthouse Green and my mum worked there too, as a school cleaner.  
So you can see that it's in my blood....!  
Clearly, there have been many changes since my days at Courthouse Green, not least the stunning new building.  
Courthouse Green Primary School will always feel like 'home' to me and I hope that as a Governor I can support on its continuing journey in improving children's life chances.
